Third Annual Cooling Ministerial

Heat Resilience and Sustainable Cooling

Ministerial Roundtable

Moderated by H.E. Adalberto Maluf, Vice Minister of the Environment and Climate Change, Brazil

Guiding questions

Heat Resilience: Does the Roadmap resonate with your country's needs to address rising heat and deploy sustainable cooling solutions?

Progress: What progress has your country made on heat resilience and sustainable cooling that you would like to share?

Collaboration: In which areas of the Action Agenda will your country engage e.g., the Manufacturing Platform for market transformation of efficient equipment; passive cooling; sustainable cold chain; NCAPs; finance, etc.?
